## Taxpayers Win Big in April 9 Election!

Chicago – Taxpayers United of America (TUA) helped local activists defeat 4 more property tax increase referenda. This makes our Illinois property tax increase referenda victories to 197! We were also successful in 2 of 3 Home Rule battles. We have effectively helped taxpayers beat down 200 Home Rule referenda in our 37 years of operation!

“Taxpayers are the big winners anytime Home Rule is defeated. Home Rule communities always have higher taxes and that is the message that resonated with South [Chicago Heights](#) and [Anna](#) voters yesterday,” stated Jim Tobin, president of TUA.

“[Itasca SD 10](#) put out a full marketing blitz to try and blur the new requirement that ballot language include the actual property tax increase. But thanks to our coordinated efforts with local activists, we were able to educate the voters who soundly defeated the referendum 1,107 to 743.”

“[McClellan CCSD 12](#) gave their government school bureaucrats a resounding ‘NO’ on a property tax increase referendum with a vote of 140 to 76. Taxpayers in Mt. Vernon simply can’t support a property tax increase when they have been hit so hard economically. They insist that government school bureaucrats tighten their belts and stop expecting taxpayers to take yet another hit.”

“McHenry County taxpayers won bigger than most. They defeated a referendum, 20,562 to 11,075, that would have actually added an entirely new taxing authority to reach into the wallets of McHenry County residents. But these big government bureaucrats met tremendous opposition thanks to local activist, Bob Anderson, founder of [McHenry Citizens TaxWatch](#). This well organized opposition also defeated a move, 4,273 to 2,378, by McHenry HSD 156 to spend \$2.2 million in bond surplus rather than return it to the taxpayers making this a double win for the taxpayers in the district.”

“McHenry Citizens TaxWatch also coordinated efforts with us to elect Tax Accountability (TA) endorsed candidate, Chris Jenner and his running mate, Thomas Wilbeck to the McHenry County College Board. With records as fiscal watchdogs, Jenner and Wilbeck will serve McHenry County taxpayers and students, rather than special interests that seek to grow empires by creating jobs – and pensions - for their cronies.”

“Libertyville trustee candidate, Phil Collins, who was endorsed by TA won a very close race for that seat. Libertyville now has at least one ‘liberty’ focused trustee in Phil who pledges to protect taxpayers from irresponsible spending and increased taxation.”

“The most important politics are local and the message that voters sent to municipal leaders yesterday is that they want a say in tax increases and aren’t willing to give government bureaucrats a blank check to pay for empire building.”

“Our fight for smaller, more responsible government is going to be won at the local level and we, TUA, are there on the ground with activists across the state to beat down the expansion of taxing authority and incessant property tax increases. We educate people on the reality of expanding taxing authority through home rule and what property tax increases are really used for, and we give them the tools they need to defeat the increases. In some cities, we are the only voice of opposition to the government rhetoric that is unchallenged and regurgitated by many media.”

“Thanks to our research, people aren’t being fooled any longer; they know that 80% of local taxes go to pay salaries and benefits, including gold plated pensions. Voters in these communities sent a loud and clear message that they want spending cuts without tax increases and they want to throw out the tax-and-spend incumbents.”
