TO STOP THE 1% SALES TAX INCREASE

“ Shall a retailers' occupation tax and a service occupation tax (commonly referred to as a "sales tax") be imposed in the County of White, Illinois, at a rate of 1% to be used exclusively for school facility purposes? ”

- ★ Government schools need to **live within their means** and cut expenses when state revenue is cut
- ★ Raising sales taxes will drive local customers to **neighboring communities** where taxes are lower
- ★ It's not 'for the children'; it will be used to 'free up' money previously budgeted for buildings and maintenance in order to prop up the lavish, **gold-plated pensions** and salaries!
- ★ Property taxes in Illinois are the **2nd highest in the nation** and should be adequate to fund schools

75% to 80% of local taxes go to fund salaries and benefits of government employees.

See the other side of this flyer for the top 20 taxpayer-funded pensions in White County.

Polls open 6am to 7pm Tuesday November 4, 2014.
