*Total Pension Payout uses IRS Life Expectancy Tables at age 65 (21 years).

Pension Estimate Assumptions:

1. Assumes employee retires in 1 year and this salary would be 2nd to last salary.
2. Assumes employee works 41 years or more and retires at age 65 and pension = 70%
3. Plus Social Security assuming 4% annual salary increases over last 35 years.
4. Total Estimated Pension Payout uses IRS Life Expectancy Tables 21 years at 65.
5. Police and Fire have slightly different pensions 65% at age 53.
If they retired at 53 add 47% to Total Pension Payout
