*Total Pension Payout uses IRS Life Expectancy Tables at age 65 (21 years).

Pension Estimate Assumptions:

1. Assumes employee retires in 1 year and this salary would be 2nd to last salary.
2. Assumes employee works 41 years or more and retires at age 65 and pension = 70%
3. Plus Social Security assuming 4% salary increases over last 35 years.
4. Police and fire may have slightly different calculation since they can retire at 53.
